**Better product.
Better prices.
It's that simple.**

**Our prices
are lower
because
we focus
on what's
important
to you and
take out
everything
else.**

We understand fleet operators like you require certain types of parts, and in most cases, you'll also know their part numbers. Therefore there's really no advantage in having access to part numbers you don't use or too many options.

At Flexible Drive, we specialise in providing specific types of parts needed to keep fleets running such as brake pads, rotors, wiper blades, cables etc. We have a very clear focus on finding out and meeting your specific requirements, eliminating other costs that are of no value to you.

By being more focused, there's no waste, duplication or unnecessary expense. By being more efficient we can pass those savings on to our customers.

Better product, lower prices whilst being easier to manage. It's a simple approach that will work for your business and ours.

**We offer
high quality
products
that
meet OE
standards.**

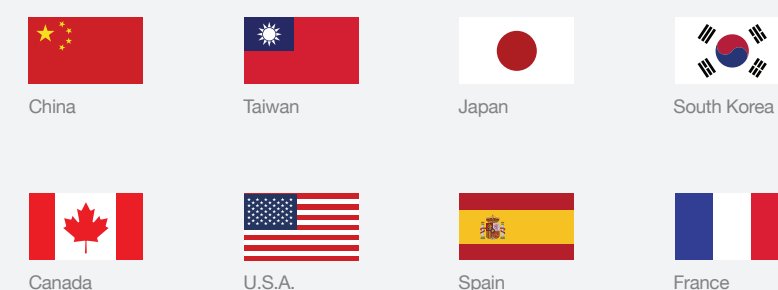

Flexible Drive is an original equipment supplier to some of Australia's largest and most demanding manufacturers such as Kenworth, Thales, IVECO and Terex.

We source our products from the best suppliers across the globe and insist that all products supplied by us comply with the necessary regulations in Australia, meeting OE standards.

Like you, our job depends on keeping things moving, which is why we are committed to providing highly reliable products.

**We have
what you
need, and
the capability
to source
what you
want.**

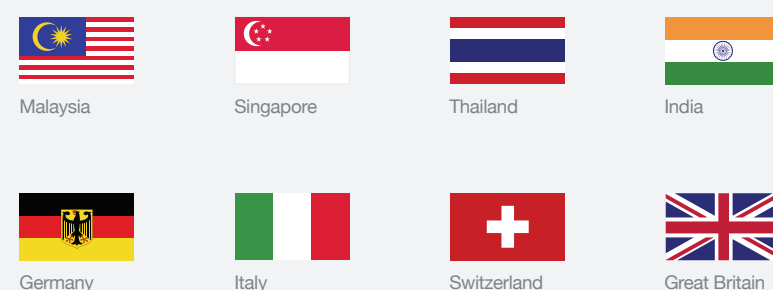

Our industry is not all that complicated. As specialists, we focus on having what's important to you by summarising what you might need and then making sure it's there when you need it.

If your needs change; we will be happy to adapt. As an experienced supplier we are ideally placed to deliver that flexibility to you.

Flexible Drive has been in business for decades, so we understand the procurement process and have consistently improved our service. Our catalogue is constantly being updated and upgrades to our communications systems now make ordering and tracking easier.

We have been, and will continue to be, committed to maintaining our range in a way that meets your needs.

**You can
depend on
us to provide
reliable
delivery
options.**

At Flexible Drive we strive for on-time delivery. We also understand that every business is different, which is why we offer flexible delivery arrangements that can be customised to suit your needs. Any required combination of scheduled delivery or on-demand delivery can be arranged.

We facilitate better delivery capabilities through online integration so that your experience with us is as seamless as possible.

Our focus is on making sure you have what you need to keep your business moving.

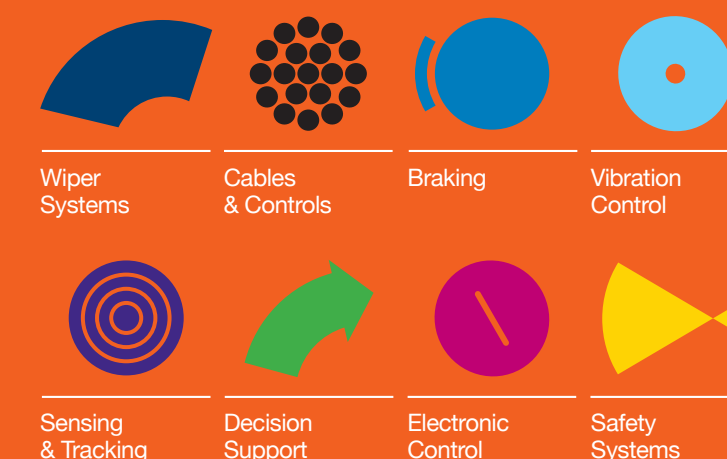

**We're here
for you.**

At Flexible Drive we do things a bit differently. We have a focused approach towards important categories, which means that we can provide you with the best product, at the best price.

We are dedicated to building with you to become the kind of trusted supplier you can rely on.
